Experience

○ Jan 2023- May 2023

INFORMATION MANAGERS, INC | Makati City, Philippines

Junior Web Developer

Created reusable code to be used in future projects and to cut expenses. Contributed to the back-end experience and worked on APIs with others. Collaborated with designers to execute website idea and design. To organize web pages and ensure easy internet browsing, JAVA, HTML, or XML were used. Examine the webpage in several browsers to judge its quality. To successfully finish projects, I collaborated with various testing tools and frameworks, content management systems, and cross-functional teams.

○ May 2018- Jul 2019

Nextgen Sign & Graphics | Las Pinas, Philippines

Machine Operator

Detected work-piece defects and machine malfunctions, recommending corrective and preventative action to management to avoid future occurrences Inspected output to monitor production completion, reporting any issues to management Optimised machinery performance by calibrating according to prescribed standards and specific project needs Set-up machines for various jobs for high-quality manufacturing and waste reduction

○ Mar 2017- Mar 2018

Toyota Aisin Philippines Incorporated | Santa Rosa City, Philippines

Machine Operator

Checked output to monitor production completion and reported any problems to management. Optimised machinery performance by calibrating in accordance with prescribed standards and specific project needs. Set up machines for various jobs to promote high-quality manufacturing and waste reduction.
